Cold Chain*

# R11—Refrigerated Container

## Intelligent Temperature Regulation

The Kodiak R11 has all of the thermal regulating technology of its bigger brother, the R36, but in a more compact, easy to handle design.

Whether you are shipping or storing medicines, blood, organs or industrial products, the R11 can hold 2-8° C for up to 5 days with no onboard power or gel-packs taking up space in the cargo area.

Kodiak's patented Intelligent Thermal Regulating™ technology employs a Thermal Switch in the frozen lid to monitor and maintain the temperature within the container. Our patented Thermal Shield protects the cargo area from ambient temperature spikes by allowing heat absorption throughout the entire cargo area.

The R11 is encased in high-quality, high-tech vacuum insulation technology providing 10 times more insulation capability than standard foam insulated boxes.

The rugged industry standard ATA style outer-box ensures that you can reuse your Kodiak container over 100 times thus reducing your per-shipment costs.

Specifications	
Temperature Range	2° to 8° C (35.6° to 46.4° F)
Hold Time	5 Days Average ambient temperature of 25° C
Payload Capacity	11L (0.4 ft <sup>3</sup> )
Cooling Medium	Intelligent Thermal Regulating Unit™
Interior Dimensions	18.4 x 27.9 x 22.4 cm (7.25 x 11 x 8.8 in)
Exterior dimensions	39.4 x 29.8 x 47 cm (15.5 x 11.75 x 18.5 in)
Weight (Empty)	38 lb (17.2 kg)

### Features:

- ◇ Vacuum panel insulation technology.
- ◇ Patented Thermal Regulation 2-8° C.
- ◇ Patented Thermal Shield helps protect payload.
- ◇ No external power source required—unit is completely self-contained
- ◇ Full 11 liter cargo space.
- ◇ No gel packs or ice required in cargo area.
- ◇ Onboard or drop-in data loggers available.
- ◇ Durable, reusable container protects product and addresses environmental issues—no recycling or disposal necessary
- ◇ Fast lid refreeze—4 hours in standard freezer.
- ◇ Single-handle carry.
- ◇ Space efficiency. Perfectly fits 16 per European pallet and 20 per US pallet.
- ◇ Modular. Multiple base possibilities.

### Applications:

- ◇ Organ Transport
- ◇ Pharmaceuticals
- ◇ Blood
- ◇ Adhesives
- ◇ Food Products
- ◇ Industrial Chemicals
- ◇ Veterinary Supplies
