ATA R36—Refrigerated Container

Ultra-Rugged Design

* 5 Day Hold Time *

The Kodiak™ ATA R36, 36 liter container offers a breakthrough in the shipment of temperature-critical products. The Kodiak™ container incorporates patented technologies to maintain an internal temperature of +2° C to +8° C for 5 days at an average ambient temperature of 25° C.

Active CC Boxes' patented Thermal Regulating technology employs a Thermal Switch™ in the frozen lid to monitor and maintain the temperature within the container. Our patented Thermal Shield™ protects the cargo area from ambient temperature spikes by quickly conducting the spikes into the cooling medium and away from the cargo area. It also equalizes the temperature throughout the cargo area.

The ATA R36 employs high-quality, high-tech vacuum insulation technology providing 10 times more insulation capability than standard foam insulated boxes.

The rugged outer-box ensures that you can reuse your Kodiak™ container over 100 times thus reducing your per-shipment costs.

Features:

- ◇ Vacuum panel insulation technology.
- ◇ Patented Thermal Regulation 2-8° C.
- ◇ Patented Thermal Shield helps protect payload.
- ◇ No external power source required—unit is completely self-contained
- ◇ Full 36 liter useable cargo space.
- ◇ Modifiable with Phase 5 for extreme ambient temperature conditions.
- ◇ Onboard or drop-in data loggers available.
- ◇ Durable, reusable container protects product and addresses environmental issues—no recycling or disposal necessary
- ◇ Replaceable lids for fast turnaround.

Applications:

- ◇ Pharmaceuticals
- ◇ Biotech
- ◇ Adhesives
- ◇ Food Products
- ◇ Industrial Chemicals
- ◇ Veterinary Supplies
- ◇ Disaster Recovery Storage
